KeyMacro is a software that uses the Keyboard Macro feature of the keyboard to generate commands. With KeyMacro you can program keyboard macros to speed up your work. You can customize the macro to meet your personal work style. The KeyMacro software provides you with a wide range of application examples. 4 Total Downloads: 2,760 Downloads Per Month: 72.82 Show Your Support Social Streamer SportPlayer helps you get in touch with sport events from all over the world. Whether you are a football (soccer) fan or a tennis addict, SportPlayer brings your favorite sport right on the screen of your monitor. The various selection of channels and sports makes it a top choice for every single sport admirers. Smooth installation and clear-cut GUI The setup process does not come with any unpleasant surprises and should not last longer than a few moments. Thanks to its simple, pretty well-organized interface, comprised only of a few buttons and a panel in which to display all the available the detected events, all types of users can find their way around it, regardless of their previous experience with computers. View a list of all sports events you can think of and start the stream SportPlayer presents the live events in the main window, after you click the “Update” button. One of the columns features tournaments in a myriad of categories, varying from table tennis, badminton, beach volleyball, baseball to tennis, futsal, cricket, golf, rugby, cycling or football. You are also informed of the event name and location, and that is where you want to click in order to open up the window comprising the video stream. Once the event window pops on your screen, you may be presented with a blank screen and that is because there is no available server for that particular stream. Otherwise, you are offered a number of servers to choose from. Support for multiple websites and watch several events at once The fact that SportPlayer combines a multitude of streaming programs makes it easier for you to find the events you are looking for. Supported streaming websites include Sopcast, Justin.TV, TVU, BoxLive, Feedocast, Webcaston or Ustream. You can also view the upcoming events by scrolling down the provided list just to make sure you do not miss your favorites in action. One more great feature of this particular piece of software is the ability to open multiple windows in the same time, making it

System Requirements:

- 1.8 GHz or higher processor (i.e., Intel Core 2 Duo E7400, Intel Core i3-2310M, AMD Phenom II X2) · At least 2 GB RAM · Windows 7/8/10 · Graphics card: DirectX 9.0c compatible, 2 GB RAM · SSD recommended (7.0 GB recommended for Fallout 4) · Internet connection and disk space to install game and patches. · "Good" VRAM (1 GB recommended) · PowerVR SG
